Apr'24 - Apr'25

Birla Institute of Technology and Science (BITS), Pilani | B. Tech. Marine Engineering | CGPA: **9.65/10**

Aug'14 - Jul'18

PROFESSIONAL EXPERIENCE

Chief of Staff to the Chairman & CEO, MPS Limited (BSE/NSE-listed, ~USD 450M)

Apr'25 - Present

Strategic Finance & CEO Thought Partnership

- Serve as the CEO's finance-first thought partner, owning leadership-level insights on business performance and capital allocation across BUs
- Own the Earnings Presentations and Corporate Investor Deck used in roadshows for QIP fundraising, engaging 20+ institutional investors
- Authored the MD&A section of Annual Report FY25, covering financial performance, risk factors, business outlook, and future perspective
- Led the corporate website redesign to carry the AI-first repositioning, aligning brand, investor, and product narratives
- Standardized group FP&A and MIS, building the FY27 MIS and BU input templates and completing the FP&A team build-out, to give leadership one performance cadence across entities
- Created and codified the group's operating principles with the Senior Leadership Team to align cross-entity decision-making and governance

M&A & Corporate Development

- Delivered MPS's largest-ever acquisition (USD 16.5M) end-to-end: finance, legal, and tax diligence through CXO alignment, expanding MPS into healthcare knowledge management
- Negotiated the Unbound SPA through to close, resolving a post closure tax-adjustment claim across multiple rounds with external counsel
- Secured ~USD 1M of specific indemnity adjustments on Purchase Consideration, plus general-indemnity tipping baskets to de-risk future liability
- Spearheaded full post-acquisition integration across Finance, IT, Legal, Business, and Operations; built and tracked post-deal growth roadmap with ~USD 5M revenue synergy target to drive post-deal accountability and value realization
- Drove the concrete integration workstreams across the US entities: migrated CRM from Salesforce to Zoho, ran the payroll-platform decision (ADP vs QuickBooks), rationalized the office lease (non-renewal)
- Repositioned the M&A strategy from turnaround-assets to profitable, high-synergy targets, leading to long-term value creation
- Built and managed a disciplined deal pipeline: 40+ targets assessed, 10+ LOIs drafted, 30+ Investment Banks and 15+ founder relationships
- Built the equity story and investor materials and engaging leading PE and growth funds (ChrysCap, Kedaara, Samara, Capital Square)
- Built MPS's AI-first equity narrative around named AI products to reframe the multiple from IT services business to AI-enabled IP business

Revenue Recovery & Turnaround Execution

- Reversed a 40% YoY revenue decline to 8% YoY growth within 5 months by leading a strategic turnaround of MPS's B2C subsidiary
- Stabilized revenue decline to 0% within 3 months through cross-platform root-cause analytics across DOMO, GA, Zoho, and JIRA
- Enforce alignment and accountability across finance, business, and operations by translating multi-source analytics into diagnostic reports with quantified risk and recovery insights for CXO decision-making
- Led Unbound's B2C revenue and marketing diagnostics post-acquisition, running channel-level forensics across Apple, Google and PayPal subscriptions, and a ~88% App Store revenue concentration to isolate the structural decline drivers
- Built the Unbound repositioning thesis, reframing the B2C app toward a B2B2C clinical-confidence platform to arrest churn and reopen growth

Cost Optimization & Operational Discipline

- Reversed EBITDA margin compression from 18% back toward 30% benchmark within 4 months by identifying cloud and manpower cost overruns and driving a structured recovery program
- Achieved ~\$1M in annual cloud cost savings on base of \$2.5M through strategic vendor negotiations & infrastructure optimization
- Shaped a \$1.2M infrastructure investment roadmap, improving cost efficiency by 30%; reduced contractual exposure by ~\$350K
- Led the AWS-to-GCP cloud migration program, building the plan and negotiating committed-use (CUD/EDP) discount stacks, including GCVE convertible CUDs and NetApp CUDs, while consolidating non hyperscaler and on prem workloads
- Negotiated the Google Workspace migration for ~3,000 licenses through a reseller agreement, structuring minimum-commitment and discount terms and escalating provisioning blockers directly with Google
- Negotiated a PPA and multi-vendor cloud contracts to cut committed spend, and built a real-time multi-vendor cost dashboard for monitoring

Cybersecurity, Risk & Crisis Management

- Led the response to a business cyber compromise — a lookalike-domain phishing attack that triggered a fraudulent vendor payment — engaging Deloitte for forensics, coordinating banks, insurance and legal, and hardening payment-authorization controls
- Reviewed the group's cyber-insurance program, surfacing a social-engineering coverage gap and driving remediation

Marine Operations Manager, Northern Marine Management, United Kingdom

Nov'18 - Mar'24

- Held end-to-end accountability for maritime assets across 35 countries and 80+ international voyages, owning the trade-offs between operational risk, regulatory compliance, and commercial uptime
- Unlocked multi-million-dollar annual savings and emissions reductions by driving a fleet-wide digital-transformation agenda spanning IoT analytics, digital-twin route optimization, and spare-parts digitization
- Earned 3 promotions in 4 years (fastest in cohort) by consistently exceeding fleet uptime, safety, and cost KPIs set by leadership
- Sustained 99.4% uptime vs. 95% industry average over 2 years across commercial fleet by leading a team of 10+ on asset management
- Delivered 5 overhaul projects worth \$25M with zero commercial losses and zero injuries by leading a multinational team of 20
